Lucrana Simmentals

www.lucrانا.com.au

Lucrana History

The stud was registered in 1986, having used Simmentals in the commercial herd for a number of years. Being impressed by the extra growth and muscling of Simmental cross progeny, as well as the maternal ability of the Simmental blood females, it was decided to purchase some stud females. A diverse group of foundation females was put together over the next few years. Today the breeding herd is run under what could be considered as tough commercial conditions.

Numerous natural service and A.I sires from the breeds leading bloodlines and herds have been added over the years.

In the early days of the stud the calves that were retained as bulls were destined for the Moore family's commercial crossbred breeding herd. As numbers grew, bulls were sold both privately and at various multivendor sales, in Toowoomba, Rockhampton, Wandoan, Casino, and Roma.

By 2012 the herd was of sufficient size to sustain our own annual sale, and the decision was made to hold our First On Property Sale.

Welcome to Lucrana Simmentals 5th On Property Sale

As our Annual Sale is once again upon us, it is pleasing to reflect on the cattle market of the past 12 months, which has remained strong and relatively stable. There has never been a better time to 'trade in' the old bull on a fit young virile sire.

With our herd continuing to grow, giving us increased numbers from which to make our sale selections from, we have brought forward an increased offering of 50 Bulls for this year's sale.

One of the highlights of the bull offering are the last sons of Barana Doyle. With perhaps his best calf crop being his last.

We are also offering a select number of females once again. And in line with the Lucrana policy of only selling breeding females that possess sufficient quality to be retained by ourselves they are sure to make great future breeders.

The embryo package gives fellow breeders the opportunity to access the genetics which will feature in our herd and sales in the years ahead.

*We look forward to seeing you on sale day,
and wish you every success with your purchases.*

Andrew Moore

Please bring this catalogue to the sale

OTHER INFORMATION

DIRECTIONS: Popgun is located on Riverton Rd, 35km SE of Texas and 100kms West of Tenterfield. See Map inside front cover.

INSPECTIONS: Inspection from 9am Sale Day or by prior arrangement.

AGENTS REBATE: 2% outside agents rebate is offered to agents introducing buyers 24hrs prior to the sale and settling on their behalf within 7 days.

PHONE BIDDING: The selling complex is located in a reliable NextG mobile coverage area. Contact the selling agents if you wish to place a phone bid.

DELIVERY: Where possible Lucrana Simmentals offer delivery at no cost to major saleyards which are on delivery routes for other Lucrana Sale Lots within QLD and Northern NSW (as far south as Tamworth & Gunnedah). This service is to be negotiated between Lucrana Simmentals and the successful purchaser and is only provided at the convenience of the vendors.

OWN TRANSPORT FREIGHT REBATE: A rebate of \$150 will be deducted off the purchase price of any lot, where the purchaser takes delivery on sale day in their own transport or a carrier organised by themselves.

BULL PREPARATION: The bulls have been prepared for sale on a Rumevite Beef Pellet, with free access to millet hay.

HANDLING: The bulls have been worked with bikes and dogs, and also exposed to horses.

CATERING: Barbecue lunch and refreshments provided.

REGISTRATION: The Lucrana breeding herd is a combination of Herd Book Registered and Simbeef Recorded (SPR) animals. The registration status is stated in the catalogue. Please consult the vendors.

TRANSFERS: Please indicate on the Buyers Instruction Slip, if an animal is required to be A.S.B.A transferred.

DISCLAIMER: All reasonable care has been taken by the vendor to ensure the information provided in the catalogue is correct. However the vendor and selling agents do not give any warrant as to errors or omissions. Prospective purchasers should satisfy themselves by inspection or otherwise as to the accuracy of the information included in the catalogue.

VET

All bulls have passed a Semen Test conducted by Ced Wise of Ced Wise AB Services Pty Ltd. Additionally they have been examined for scrotal size and breeding soundness. A Sperm Morphology evaluation has been undertaken, from a sample from each bull, by Sally North of Rocky Repro.

Morphology results, scrotal circumferences, weight and scan data, and pregnancy status of the females will be available in a supplementary catalogue on sale day.

HERD HEALTH

The area is a BJD(johnes) protected area and in a Cattle Tick Free area. Cattle are free to move interstate without any treatments.

Bulls

Vaccinations:

BEF (3 day) 14/12/15 & 4/02/16
3 Germ Blood 30/09/15
Cydectin 4/02/16
7 in 1, Pestigard, Vibrovax 18/5/16 & 16/6/16

Tests:

Negative PI (pestivirus) Test

Heifers

Vaccinations:

7 in 1, Pestigard, Vibrovax 18/5/16 & 16/6/16

Drenches:

Dectomax 31/03/16

Zoetis STAR is a quality assurance program for buyers. Buyers can be assured that the below steps have been taken to maintain productivity against preventable diseases that can effect fertility within a breeding herd.

Step 1 – checked that bulls & females are not Persistently Infected with Pestivirus

Step 2 - vaccinate with Pestigard ®

Step 3 – vaccinate with Ultravac 7in1®

Step 4 – vaccinate with Vibrovax®
