Steele is the first of our 2021 spring calves to be sold, this versatile bull would be suited to many operations as he is smooth coated, structurally current calf making him able to perform over a variety of herds. Steele would suit a self replacing herd as his dam, Rellum Farms Lilly N20 is fast become a strong matron in our herd. A true traditional simmental that we have all grown up to love.

## RELLUM FARMS STORM BOY S35 (P)

LOT 18

Storm Boy was not fortunate enough to be a part of the show team, this bull is a nugget of a spring calf coming off of straight grass.
