WELCOME TO HOBBS LIVESTOCK

Welcome to Hobbs Livestock, a family-owned and operated business dedicated to delivering the finest Simmental and Angus genetics in the industry. As Stuart and Kylie Hobbs, proud parents of Isaac, Henry, and Sophie, we are thrilled to share our passion for cattle breeding with you. With a legacy of success at the Simmental National event, we have consistently achieved remarkable prices, with bulls reaching up to \$32,000 and females up to \$10,000.

We are excited to announce our inaugural on-property bull sale, where we invite you to explore our exceptional lineup of Red/Black Simmental bulls and females, along with Black Angus bulls. Our journey began in 2012 when we embarked on establishing our Red and Black Simmental Stud, importing our first embryos from Canada. Since then, we have implemented cutting-edge ET programs to rapidly expand our herd while maintaining unwavering standards of excellence. As you peruse the pedigrees of the bulls and females in our sale, you will undoubtedly recognize the profound influence of the esteemed Keepsake cow family, a cornerstone of our remarkable achievements.

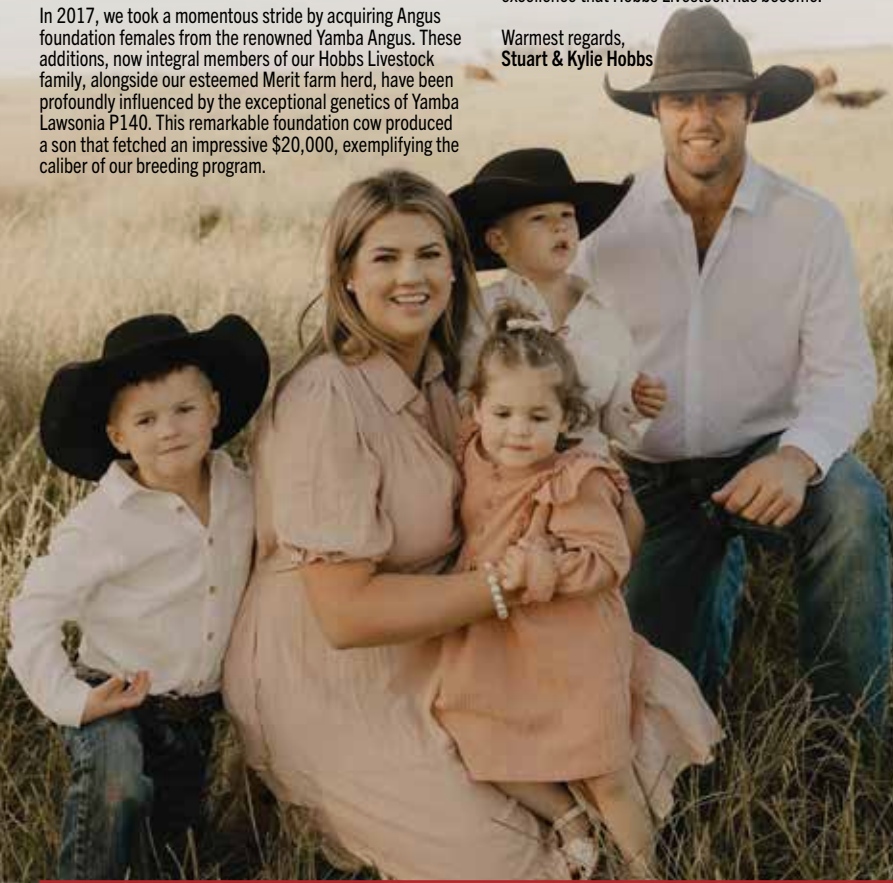

In 2017, we took a momentous stride by acquiring Angus foundation females from the renowned Yamba Angus. These additions, now integral members of our Hobbs Livestock family, alongside our esteemed Merit farm herd, have been profoundly influenced by the exceptional genetics of Yamba Lawsonia P140. This remarkable foundation cow produced a son that fetched an impressive \$20,000, exemplifying the caliber of our breeding program.

At Hobbs Livestock, our unwavering focus lies in breeding commercially-oriented cattle that excel in all aspects of breeding operations. We place paramount importance on structural soundness, fertility, temperament, and carcass quality, ensuring our cattle possess optimal fat cover and doing ability. Our bulls and females, meticulously selected for sale, adhere to the highest industry standards, providing you with unwavering confidence in your purchasing decisions.

To further guarantee the quality and health of our animals, we have taken extensive measures. Each of our Bulls and Females has undergone comprehensive testing, including GGP100k testing, PI testing, parent verification, color testing, poll testing, full veterinary checks, and semen testing. Our commitment to transparency and excellence ensures that you acquire cattle of the utmost caliber.

We eagerly anticipate the opportunity to welcome both new and existing clients to our Inaugural bull sale. Join us in experiencing the exceptional quality and unwavering excellence that Hobbs Livestock has become.

Warmest regards,
Stuart & Kylie Hobbs

WELCOME TO MERIT FARM

Merit Farm is a family-owned business operating since 2014 and is dedicated to raising and promoting premium Black Angus Cattle. In 2018 Merit Farm made a significant investment by acquiring 50 prime Stud Heifers and Cows from the renowned Ben Nevis Angus Stud. This marked the beginning of an exciting journey that has seen our breeding program flourish and evolve. Today we take immense pride in our 150-strong breeding herd of premium Black Angus Cattle.

Since our establishment, Merit Farm has placed a strong emphasis on selective purchasing and breeding practices. Combining the use of advanced Artificial Insemination (AI) techniques and natural fertilisation, we have meticulously crafted a breeding program that consistently produces superior-quality cattle.

At the helm of our breeding operation is Stu Hobbs, a highly experienced and respected cattle manager who has been entrusted with the management of Merit Farm's herd. Stu has a wealth of knowledge and experience spanning generations and having managed cattle for numerous years has an unwavering dedication and passion.

We believe that the success of Merit Farm is a testament to our unwavering commitment to raising premium Black Angus Cattle and our cattle are bred and raised with meticulous care and attention to details, ensuring each animal possessed the desired traits of the Black Angus Breed robust health, superior genetics and remarkable conformation. This can be seen in the lineage of our cow herd with the purchase of Premier Jestress H66 for \$26,000 who has 11 ET sons in the sale. From the Ben Nevis herd we acquired cow families such as the Dormist, Kiwi and the very well renowned Jean cow family who have all bred extremely well for Ben Nevis and are now breeding so well for us.

We invite you to explore our current offerings, which showcase the fruits of our labour. Our team is available to provide you with detailed information, answer your inquiries and guide you through the process of selecting the perfect cattle for your specific needs. We look forward to seeing you attend the Merit Farm inaugural Sale on 16/08/2023.

All bulls are Sire Verified/Parent Verified, PI Tested and Fully Genetic Tested, Full Vet Check and Semen Tested for you to buy with confidence.

SALE INFORMATION

OPEN DAY

Hobbs Livestock and Merit Farm will be holding a open day on Thursday 27 July 2023.

9:00am to 4:00pm

SALE DATE AND PRIOR INSPECTION TIME

The Inaugural Hobbs Livestock and Merit Farm Sale will take place on Wednesday 16 August 2023.

10:00am-Inspection

Bulls and Females may be inspected from 10:00am on the morning of the sale, or at any other time by arrangement with agent or vendors.

1:00pm- Hobbs Livestock and Merit Farm Bull sale followed by 8 Elite Females

System will be live auction on site interfaced with AuctionPlus. See details at www.auctionplus.com.au.

HOW TO GET TO THE OPEN DAY AND SALE

'Rosehill' 33 Burgess Road is a short 10min drive from Molong. Take Packham Drive towards Manildra for 10 kilometres. Turn Right onto Burgess Road, follow for 500 metres then turn left. Will be sign posted on Sale Day.

SELLING SYSTEM

Sale of the bulls will be conducted under normal auction conditions. Please check with the Selling Agents to obtain a buyer's number if you are considering making a purchase. Successful purchasers are requested to give written advice to the Selling Agents regarding transport arrangements at the conclusion of the Sale.

BULL AND FEMALE VACCINATION

Blooded for tick fever, 3 Day Sickness, Vibro, Pestiguard and 7 in 1.

TRAVEL, ACCOMMODATION AND DINING

There is One motel located in Molong and we are a 40min drive to Orange, which has an extensive selection of accommodation and restaurants. Orange has a regional airport.

REBATE

2% rebate to outside Agents registering BUYERS, in writing, 24 hours PRIOR to the Sale and settling on their behalf within seven days of the date of Invoice.

PHONE BIDDING

The sale will also be on AuctionPlus or contact the selling Agents.

CATERING

We invite you to enjoy a free lunch and morning tea on us.

INSURANCE

We highly recommended to insure your purchase, especially for the first six months of their working life. There are a few options available please see our Agents for more details.

REGISTRATION

Ownership transfer of bulls will be registered by the vendors with Simmental Australia and Angus Australia, please make sure accurate transfer details are on the Buyers Instruction form.

GST

All animals are sold excluding GST.

SALE INFORMATION

WARRANTY

The vendor warrants that:

Bulls are fertile and capable of natural services within six months of the date of Sale to the purchaser (Warranty Period).

The vendor will either:

1. Provide a satisfactory replacement: or
2. Provide a credit for use at the next Hobbs Livestock and Merit Farm sale equal to the purchase price (excluding any costs and expenses of the purchaser in taking delivery) minus salvage value.

Where:

1. The purchaser claims a bull is infertile, upon purchaser submitting 2 x Veterinary reports 10 weeks apart stating the bull is infertile (semen) OR 1 x Veterinary report stating the bull is capable of natural service, and a Statutory declaration by the purchaser to the effect that the substance of the report is true or correct. The Veterinarian must state that in their opinion there is no evidence that the bull has suffered any injury or illness during the Warranty period which could have affected his breeding ability.
2. The Veterinary report and Statutory declaration must be forwarded to vendor within 14 days if the Warranty Period expiring.

BULL HANDLING

On arrival at their new home, it is important a suitable mob of animals is yarded to greet the bull to minimise his stress.

The bulls are in good joining condition at the point of Sale, but it is imperative to

ensure good nutrition for the bull during joining period. You should regularly check the bulls to help minimise the damage to the bull. After joining we highly recommend being drenched and placed on a good pasture paddock to help get back into good condition

HEALTH AND SAFETY OF VISITORS AT OUR SALE (RULES AND ADVICE)

Visitors enter the cattle pens at their own risk.

Children must not enter the yards.

All persons who attend the sale do so at their own risk and the vendor assumes no liability, legal or otherwise, for any accidents which may occur.

DISCLAIMER:

Every effort and all reasonable care have been taken by the vendor to ensure that the information provided in this catalogue is correct at the time of printing. However, neither the vendor or selling agents take responsibility regarding accuracy, reliability or completeness of the information provided, and do not assume any responsibility for the use or interpretation of this information.

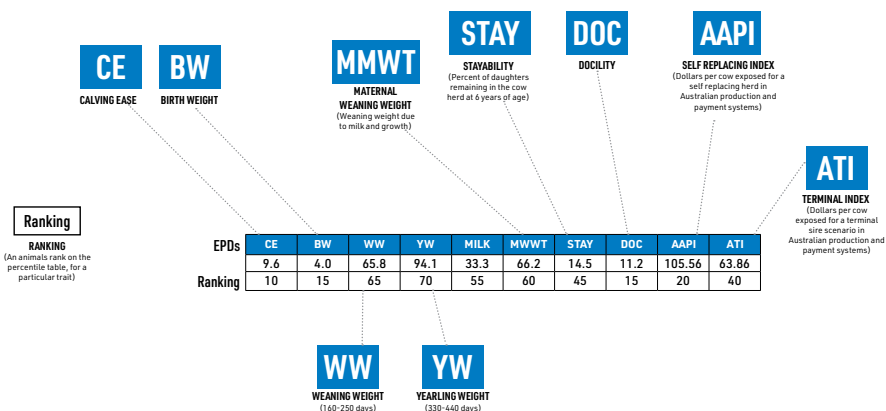

IGS/EPD INFORMATION

With the introduction of the IGS performance recording system for Simmental cattle, IGS is the world's largest animal performance recording system.

One of the major changes is the breeding figures being reported as Estimate Progeny Differences (EPDs), rather than Estimated Breeding Values (EBVs). The difference between the two is simple.

Effectively, an EBV is an animal's own genetic value for a particular trait. However, the animal can only pass half of this onto their progeny. EPDs have the "half" already accounted for. That is, an EPD is the genetic merit of an animal's progeny – what they will pass onto their progeny.

IGS can incorporate an animal's genomics into its performance data. All animals in the Simmental Opportunity sale have been 100K GGP-LD DNA profiled.

Simmental - Traditional, Fullblood and Simbrah Register Breed Average

	CED	BW	WW	YW	MILK	MCE	MWWT	STAY	DOC	CW	REA	FAT	MARB	YG	AAPI	ATI	API	TI
EPD	5.3	5.7	69.6	101.1	33.2	3.7	68.0	13.4	8.3	20.8	0.79	-0.122	-0.09	-0.51	42.84	36.15	95.75	62.70

Black, Red, SimAngus and SPR Register Breed Average

	CED	BW	WW	YW	MILK	MCE	MWWT	STAY	DOC	CW	REA	FAT	MARB	YG	AAPI	ATI	API	TI
EPD	10.0	2.4	76.5	116.0	23.1	5.5	61.3	15.1	12.1	29.1	0.83	-0.088	0.07	-0.40	61.14	56.46	122.61	74.27

Polled and Coat Color Information:

PP - Homo Polled - the bull carries two copies of the polled gene

Homo Polled Homo Polled 100% Polled
Hetero Polled 100% Polled
Horned 100% Polled

Pp - Hetero Polled - the bull carries one polled gene and one horned gene

Hetero Polled Homo Polled 100% Polled
Hetero Polled 75% Polled, 25% Horned
Horned 50% Polled, 50% Horned

Homo Black - the bull carries two copies of the black gene

Homo Black Homo Black 100% Black

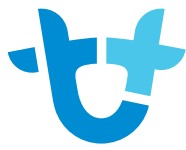

Hetero Black 100% Black
Red 100% Black

Hetero Black - the bull is black in color, but carries one black gene and one red gene. Black is dominant to red, so the red color is not expressed when it is paired with a black gene.

Hetero Black Homo Black 100% Black
Hetero Black 75% Black, 25% Red
Red 50% Black, 50% Red

Red - the bull carries two copies of the red gene. This example assumes the bull is diluter free.

Red Homo Black 100% Black
Hetero Black 75% Black, 25% Red
Red 100% Red

%RK	70	70	10	10	80	25	30	55	90	55	30	50	95	40

Notes - We saved one of the best for last to end the Simmental draft on. This young bull has so much sire appeal, softness and meat. His sire was a standout just like he is, his dam has been in the donor pen and has a full brother to Lot 19 on her again for next year.

Homo Black and Homo Polled

Vaccinations - Blooded for Tick Fever, 3 Day Sickness, Vibrio, Pestiguard and 7 in 1.

Traits Observed: BWT, Genomics

Notes - We think elevation is a very special bull with a commanding presence and stud sire appeal. His stunning phenotype is matched by his EBV's for herd improvement, outcross excellence. He moves like a cat. Yes, his up there on his BWT but you can't breed a front rower without a bit of performance and we believe he is a bull a lot of people could use as a tool. He has beautiful bone, soft coat and structural soundness. His dam is Hobbs Livestock Number 1 donor cow with sons selling for \$20,000. Semen Retained.

Vaccinations - Blooded for Tick Fever, 3 Day Sickness, Vibrio, Pestiguard and 7 in 1.

%RK	100	100	2	15	80	95	20	90	15	15	40	60	100	60

Notes - A bigger framed heifer with a beautiful feminine front end but still carrying plenty of carcass and softness. This heifer reminds me so much of her dam when she was a heifer. Her dam is by far one of our best cows with 25 registered progeny, Bulls selling for \$20,000 and heifers selling to \$15,000. With L5 getting older the pick of these 2 heifers will be one of the only females offered out of L5.
