How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select “**Sign Up**” in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select “**Dashboard**” and then select “**Request Approval to Buy**”.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

INSPECTIONS

Cattle will be yarded in pens at 'Karingal' 219 Henty- Ryan Road NSW 2658 and will be available for inspection from 10:00am - 6:00pm on open day Monday 6th March 2023. Inspections can be arranged at any time prior to the sale by appointment with agents or the St Paul's Genetic team.

REGISTRATION & TRANSFERS

All bulls and females in the sale are registered with Simmental Australia. St Paul's Genetics will transfer eligible bulls and females into new purchase name through Simmental Society, purchases to please advise Simmental Australia herd prefix. The Settling Agent of the sale will conduct individual NLIS transfers to purchasers nominated PIC on registration form.

BIDDING / BUYER NUMBER SYSTEM AUCTIONS PLUS

THE SALE IS BEING CONDUCTED BY THE AUCTIONS PLUS ONLINE PLATFORM.

THE SALE WILL BE A SIMILTANEOUS AUCTION COMMENCING FRIDAY MARCH 10th at 10 AM and concluding via the timer system from 4 PM on SATURDAY MARCH 11th.

The sale is online via Auctions plus. Usual protocol to register for bidding is required through this channel. It is strongly encouraged to register at least the day before the sale commencing.

PHONE BIDDING

Please contact agents prior to sale to arrange phone bidding, which then can be performed online on the intended purchaser's request.

CARTAGE / FREIGHT

St Paul's Genetic will co-ordinate freight assistance on deliveries. Purchasers, please confirm by requests to Bill by email billcornell@bigpond.com or via text to 0428 293 498.

INSURANCE

St Paul's Genetics recommends you take out insurance to cover your new purchase. At the completion of the online sale the animals you have purchased are your responsibility.

ANIMAL HEALTH

St Paul's Genetics has a PIC no NC322072 and is J-BAS 7. All cattle have received the following assessments/treatments:

- Fully vaccinated with 7 in 1 (twice yearly April and October) and drenched to control any internal/ external parasites. All cattle are free to travel to all areas of NSW, VIC, TAS, SA & QLD.
- All bulls and all Heifers born in 2021 (Series) have been ear notched tested Bovine Viral Diarrhea (BVD) negative.

BULL SOUNDNESS AND FERTILITY

- All Bulls have passed a breeding soundness and fertility examination and fertility with Holbrook Vet Centre and received a VIBRIOVAX shot.

FEMALE FERTILITY AND PREGNANCY STATUS

All females are warranted as sound breeding stock. All females have been pregnancy tested. An individual comment with each lot as to the Pregnancy Status, this is to assist the potential buyer to understand whether the female is in calf to the AI, likely to pregnant to the AI or likely to pregnant to the bull. On Jan 30, 2023, all sale females were pregnancy tested safe in calf with the exception of four lots which are to be retested prior to commencement of sale. Also note if an animal was PTIC on Dec 19, 2022, she was reconfirmed pregnant again on Jan 30, 2023.

DNA TESTING

Check the results of DNA testing in the information on each individual lot. Note All bulls are homo black, homo polled, parent verified to mating and genomic tested. All females are homo polled, all females are homo black except for lots 35,36,37 and 40. All females have been subject to parent verification, and most have been genomic tested.

GRADES

Check the grades in the information supplied on each individual lot. All bulls are purebreds, and females except lots 16 and 30 being grade 3 (their pregnancies will be purebred) and lot 34 is a grade 1 (pregnancy is a grade 2)

GST

All lots will be offered on a GST Exclusive basis

DISCLAIMER Whilst all due care and attention has made to accuracy in the compilation of this catalogue, neither the vendor nor the selling agent or representative thereof assumes any responsibility whatsoever for the correctness, use or interpretation of the information on animals included in this sale catalogue.

SALE FOREWORD 2023

Welcome to the St Pauls Genetics Black Simmental Sale being offered and through an Auctions Plus Simultaneous Auction over two days. It is a new selling format for us and believe it is a friendly environment for buyers.

The decision to have the sale is the result of circumstances

- a build-up of numbers, near half our annual drop of calves are the result of embryo transfer.
- The wet seasons have been great, but a side effect is the third of our farm that is in the Doodle Cooma Swamp is currently about three feet underwater!
- As a Simmental Federal Councillor and Chair of Youth I saw that there few opportunities for new breeders to select and buy Simmental Females and Genetics. Rather than sell this group as a package privately as we have done in the last 9 years since the 2014 sale it was time to do a sale again.

Certainly, selecting females for the sale was a gut-wrenching experience BUT we wanted to offer the best from our herd. The selection process led us to offer the following

- All twenty-five 2022 spring born heifers many are ET produced females out of our best cows. No exceptions
- Some current embryo donors that have flushed well (check out Lots 35 and 39). We have embryos in the tank for the future and pregnancies due later in the 2023.
- A selection of super EBV data females. Performance is planning more of a role in cattle breeding. Check out Lot 36 Pear R320 she is the carcass queen of the whole Simmental Australia data base; no female matches her EBV carcass composition of EMA and IMF. Other females in the top ten for Black Simmental females include Lot 10 and 23. Embryos from dams in Lot 54,55 and 58).
- Females sell as PTIC and calves are weaned. Exceptions are lots 37 and 48 that sell with calf/calves at side.
- The sample of bulls on offer is led by the outstanding bull, S440 as Lot 1.
- Genetics include the services of exclusive bulls like the \$150,000 Canadian RF Caliber 014G, semen fetches \$400+ a dose. New bull Gibbs 9114G Essential, who is currently the best all round bull for CE Birth, Growth and Carcass available. And Bonnydale Nukara, no 1 progeny sire in 2021 and no 3 in 2022.
- Embryos offered are exceptional. And we have implanted the same embryos this season!

We really hope this offering will be a source and add to the future success of breeders.

The journey to get here is a long one, here follows a story.

My cattle venture began in 1967 when my parents allowed me to select a commercial heifer. As a 10-year-old this was overly exciting and I could not wait for my Shorthorn Hereford cross heifer, who I called Christina, to have a calf. She had a heifer and in fact I had eight heifers in a row from Christina and her daughters. I was in the cattle business!

Cattle have always been my passion! I have been involved with a variety of breeds. My brother and I bought our first Angus stud cows in 1976 and created Kanangas. In 1980 I travelled to the USA and Canada to select Angus cattle which came to Australia via the Cocos Islands. In 1987 I imported Limousin embryos from Canada. I married Susan in 1988 and started St Pauls Genetics. We began importing Simmental genetics from USA in 2003.

During my life I have consulted and assist two the largest genetics companies in the world. In doing so I have enjoyed tours to North America, New Zealand, Europe, and the UK. Over thirty trips to the USA have been marvellous and a pleasure to meet and learn from many great cattle owners and educators.

Selling, buying, trading, breeding cattle is what I love to do!

I had the privilege to meet one of the greatest cattle professors Dr Harlan Richie of Michigan State University. I travelled with Harlan several times in the early 80's in the USA, Australia and NZ. One of the most significant conversations we had was in March 1981 on the veranda of a motel in Colac Victoria, we had just toured Te Mania Angus. I asked Harlan what the composition of the ideal commercial cow is, without hesitation Harlan replied a "Simmental Angus cross cow." At this time, being strongly focused on Angus, I was amused but the answer struck a chord, and I had seen the rise of Simmental through the showing. Three years later our family placed an advert in the Simmental Annual Magazine offering Angus genetics to create the ideal commercial cow!

The Simmental Journey

Through my travels I first saw Black Simmentals at Dave Nichol's farm in Iowa in 1985, although impressed it was a decade later before I added Black Simmentals to a semen sire directory. GW Mick 838B being the bull. I followed up with visits to Jim Butcher's Gateway herd in Montana.

In 2002 visiting Gateway I saw steers and learnt of the high compliance with Certified Angus Beef. I visited the American Simmental Association to learn more. In January 2003 I started my consultancy with ABS as the Beef Product Manager for Australia. Shortly after the appointment we, as ABS, convened a meeting with the American Simmental Board with the plan to advance Simmental genetics into the beef marketplace. Initially the meeting group agreed and started the Trans-Pacific Simmental Progeny Test Program. This plan gained momentum. In discussion with Jerry Lipsey, Marty Ropp and Wade Shafer I learnt that research from Clay Centre, Nebraska from 1972 to the present day shows that crossbreeding paid dividends. It showed the best combination of complimentary crossbreeding was using Angus and Simmental. In fact, these types of cows produced 25-30% more lifetime production than purebred cows like an Angus. The Trans-Pacific Simmental program concept was support by Peter Speers the CEO of Simmental Australia. Over the next years a series of Field Days were held in Southern Australia. American Simmental speakers explained the Simmental maternal advantage.

My belief with cross breeding and the benefits of what Simmental had to offer lead us to form a partnership with Circle8 and we traded as CO-OP Simmental, the prefix is still in the background of a number of Australian Black Simmentals today.

In 2003 CO-OP imported Black Simmental embryos and committed to the breed and this new cattle project. As the project refined Marty Ropp (then the Simmental Development Manager and now partner in USA Company All Beef and Allied Genetics) and Jerry Lipsey, the CEO American Simmental assisted me in procuring the main donor cows that have founded the herd. In 2008 our family cattle business St Pauls acquired full ownership of the CO-OP herd. I continued to expand the Black Simmental herd.

We have enjoyed remarkable success. Bob Butcher at Wills Hills bought fifteen heifers to start his herd and Webb's Simmental bought twenty-two heifers. In following years many of the Webb Simmental Sales featured high selling bulls go back to the original females purchased from us. We have sold bulls to studs and exported two Black Simmental bulls to China's largest A.I collection centre in 2010. St Paul's always wishes to share genetics with other breeders.

During the period we have enjoyed collaborating with other cattle breeders and assist them with stock for their cattle sales. One of the great involvements was with Paringa Black Stabilizers as they established their program with many St Pauls bred bulls going through their sale ring.

In March 2014 we had built quite a sizable herd, but with the sale of a farm we leased we scaled down. The sale was a Total Herd offering with every animal

genetics on offer, the few animals we wished to keep we offered flushes or embryos. 230 lots sold!

Following the sale, we steadily built the purebred black herd especially with co-operator herds contracting to raise ET calves.

Following a visit in later 2016 we sold half the herd to Andrew Moore, Lucrana Simmentals at Texas. In the following couple of years, we collaborated with Lucrana to provide young bulls for the Queensland market. Our son Adrian continued with this program because of local demand for our bulls prevented us supplying at the time to Lucrana.

Continuing with our program Elite Cattle Co purchased the majority our Spring calving herd in January 2021. Elite wished to expand their annual sale bull numbers and St Pauls is proud to join the sale as an invited guest. We were so excited to have our ten catalogued bulls average \$19,500 with a top of \$30,000 in the 2022 Sale. Fourteen bulls are currently residing at Elite for the sale August 31st, 2023, sale.

We occasionally show our cattle at Royal Shows.

2014 Grand Champion Bull with Gotcha Go out of the Pear D270 cow.

Grand Champion Simmental Female and Supreme Interbreed Champion of Canberra Royal with Red Pear G427.

At Sydney Royal in 2014 Red Pear was Grand Champion Simmental Female and Gotcha Go was reserve junior champion bull.

SIMMENTAL FEATURE BREED SYDNEY 2022

- Bull calf champion Silversmith S413
- 1st Pair of Bulls under 20 months - Silversmith and Secret Squirrel

STEERS

- St Pauls Doug S414, 2nd on hoof • 1st Class 6 on hook, Silver Medal • 1st Virtual Taste Test (sired by Nukara out of Lot 43)
- St Pauls Frank S406, 3rd on hoof • Class 7 on hook, Bronze Medal (full flush brother to the junior bulls Silversmith and Secret Squirrel)

MELBOURNE SHOW 2022

Exhibited three purebred heifers • 12-16 months Female class placed 1st, 2nd, 3rd (see Lots 17,18 and 7)

- First for Best two females under 20 months • First Sires Progeny Group • Winner Best Maintained Exhibitor • 12-16-month Simmental Percentage heifer 3rd (Lot 16).

Our plan is to breed the best Black Simmentals that we can. Factors of Performance in EBVS and soon IGS EPDS; good looking phenotype, solid structure, overall fertility and docility are what we select.

REFERENCE SIRE RF CALIBER 014G (P) (B)

Identification No:	IMCPQ0444
Birth Date:	30/12/2019
Grade:	Purebred
Horn:	Polled
DNA:	Tested PV, SEEKSIRE
Parent Verified:	Verified to Sire
Colour:	Black

NCB COBRA 47Y
Sire: NGDB STRUCTURE 34D
 NGDB LOUISE 411 B
 SVS CAPTAIN MORGAN 11Z
Dam: RF NOT JUST A FLIRT 404B
 RF CERTAINLY FLIRTIN 202Z

Comments: RF Caliber 014G was the \$150,000 high seller in our 2021 bull sale to KT Ranches and Canadian Sires. Caliber has breed leading performance and powerful phenotype combined with tremendous maternal power. The bottom side of his pedigree stacks 5 generations of donor females and some of the most prolific females in our herd and the Simmental breed. His sire, Structure, stamps his progeny with extra middle, extra sound structure, great hair, and the first daughters in production are beautiful young females with great udder. Caliber semen is offered each sale held by Valley Creek and sells at \$400-\$450 per straw in packages.

Check out Lots 38, 39, 41, 42, 43, 44, 45, 46, 49, Embryo Lots 52, 54 and 56.

Colour:	Homo. Black (by DNA Test)

REMINGTON LOCK N LOAD 54U
Sire: W/C LOADED UP 1119Y
 AUBREYS BLACK BLAZE III
 HART ALL IN W382
Dam: SPRINGCREEK B GOLD 102Y
 SPRINGCREEK BLK SKY 100T

Comments: Spring Loaded fitted all of our needs. We were very impressed inspecting him as an 11 month old. The pedigree fitted as a real outcross for our program. His sire W/C Loaded Up we had been keen on since his sale in 2017 for \$240,000 half interest. His dam 102Y was highly recommended and had an awesome photo.

At the Simmental Feature Sydney Show we were again captured by the bull's medium frame, muscle mass, thickness and overall superb structure. Many lots carry his service either through AI or as natural matings.

 GIBBS 3136A STAR 0589X

Comments: A purebred herdsire who rivals any in the breed. His EPD combination of double-digit calving ease, growth, docility and index values put him in a league of his own. He ratioed 115 and 119 at weaning and yearling in the Gibbs herd. He offers flawless design, excellent feet, disposition and hair. Different pedigreed purebred that has excellent mating possibilities. His dam is a young, highly productive, blaze-faced cow. She has a perfect udder and is in donor pen at Gibbs Farm. First calves came easy with extra length, frame, and hip while balancing a striking looking with breed leading docility. EPD's, Essential ha 7 traits in top 1% and 13 in top 10%, an easy bull to use. Check his AI service to lots in the sale. Also sire of Embryo Lots 53, 57, 59 and 61.

Traits Analysed: 200WT,400WT(x2),MWT,FAT,EMA,IMF

M412 is a pedigree of who's who in the breed. Let's start with St Pauls Pear D270, still active and in the donor pen at 14 years.

D270 sire ES Dakota was an outstanding AI sire for ABS. Prickly Pear 615F was the one cow that Jerry Lipsey claimed as the performance and phenotype star of the breed. 615F ranked in the top 10 prolific cows of the American Simmentals.

Dam G430 is by the ABS AI sire Star, perhaps the best son of Dream On, a one time registration leader of the breed. Star's dam K205 was at one time donor leader in the breed. Also K205 the dam of AI sire Mo Better.

G430 sold to Lucrana, but not before we had done two flushes. We got 2 daughters M412 and M421 (refer Lot 56).

Pear M412, first calf Paramount was the highest performance bull of the P year, the fabulous Q443 (Lot 14) followed. M412 entered the donor pen.

Her progeny shone so bright in 2022.

ST PAULS PEAR D270

PRICKLY PEAR 615F

SECRET SQUIRRELL S412

SILVERSMITH S413

BULL CALF CHAMPION SILVERSMITH

Silversmith S413, won the bull calf championship at the Simmental 50th year Celebration Sydney Royal Show. Flush brother Secret Squirrel placed second. Together they won the pair of bulls under 20 months. The third brother Frank placed 3rd in the steer class and won a bronze medal on hook.

SERBIA S415

At the Elite Sale, as invited guest, Silversmith sold for \$22,000. Serbia being M412 natural calf sold for \$20,000 and Secret Squirrel at \$18,000. Two younger M412 sons, Story Teller and Ship sold as a pair for \$25,000, privately as yearlings at St Pauls. \$85,000 in total.

In this sale we may be crazy but daughters on offer Lots 7-14, son Story Time S440 is Lot 1 and embryos offered Lot 52 and 53.

Traits Analysed: BWT,200WT(x2)

Lucy K435 is a superstar, a cow we do not sell despite offers.

Tracing back her pedigree, Lucas MS 129L 594R was the highest indexing and performance animal of her year in the 600 at Lucas Ranch. 594R sire Highway is out of the famed Prickly Pear 615F (foundation of our Pears). 594R's of dam Boldstock J90 AI sires, Legend (ABS) and Lucky Deal (who was the breed growth leader in his day).

594R has 2 famous daughters, St Pauls Olie Lucy E433, still at St Pauls and has lots in the sale, and St Pauls Dream Lucy E431 - sold to Lucrana.

E431 had 7 daughter, the most famous are Lucy K435 (at St Pauls), Circle Eight Miss Lucy K299 (with 22 progeny at VC) and St Pauls CK E431 Lucy G451 now also at VC.

Lucy K435 has been certainly recognised and sought after for her outstanding EBV profile, with top 10% CE days, 200 day, EMA, fat and high IMF.

K435 first heifer Q405 had the standout S409. K435 bull progeny by Cowboy Cut were the high sellers in 2020 and 2021.

A Cowboy Cut daughter R404 ranks No. 3 for Export Terminal in all Black Females. There are 2 full sisters in sale (Lot 19 & 20).

K435 phenotype is certainly passed on to her progeny.

4 daughters sell at Lots 19-22 and a son at Lot 6.

3 females L to R lot 20 , 36 (the carcass queen) and Lot 37.

ST PAULS CC K435 LUCY R406

M415 one of 3 full sisters by Cowboy Cut out of D270. Also a 3/4 sister to M412. Australia's most prolific cow.

M415, pedigree heritage, breedplan influence being top 10% for 400 day, scrotal and IMF plus her good looks made her a must for the donor pen.

Four ET daughters are offered for sale at Lots 23-26 and 2 ET sons at Lots 2 and 3.

Whilst sad to be selling the first ET crop, we are certainly excited with her 2 natural heifers calves by Nukara and All Time and T series ET heifer calf by Riddler. These 3 heifers along with M415 will create the M415 dynasty.

Group of sale heifers.

 LUCAS MS 129L 594R

Comments: AI'd Nov 1 to Gibbs 9114G Essential. Depastured with GB Livestock Spring Loaded from Nov 7. PTIC Jan 30 most likely to Spring Loaded. A run of 3 full sisters. They are 3/4 sisters to our sire Qatar. S429 is a sweetheart, great natured, medium frame, maternal. The dam E433 has been a cornerstone donor. E433 is the only purebred daughter of Ellingson Legacy M229 "Olie" in Aust. Olie is known as the maternal breeder.
 Full sisters Lot 28 and 29, full brother Lot 5.

Comments: AI'd Nov 2 2022 to RF Caliber. Depastured with St Pauls Qatar Q410 from Nov 8. PTIC Dec 19 to AI. Here is a female to look at. A powerfully made, deep bodied, wide cow. Much admired by all that call in. Her son Doug was our steer at Feature Show in Sydney. He won his class on the hook and the taste test winner, plus a Silver Medal winner. P407 mating to Caliber is awesome. Probably the deepest ribbed cow in the sale, admired by those that have toured St Pauls.

WANT TO SEE MORE!

Video of every sale lot is on Auctionsplus.

OPEN DAY Monday March 6 from Noon

at the farm, 'Karingal' 219 Henty-Ryan Rd, Henty NSW
 every lot on display.

**This is the day before the IGS Australia Convention
 at Wagga Wagga on March 7th and 8th**
 (see advert pag 43)

We are just 45 minutes south of Wagga Wagga.

EMBRYO LOTS 52 - 61

All embryos are direct thaw embryos that have been collected by E.T. technician David Christie.

Embryos are sold in packages of 4 embryos, and are sold on a per embryo basis.

Embryos are of sound quality. A warranty of a 50% pregnancy rate to 90 days over the purchasers total embryos if implanted with an agreed technician.

David Christie has been our E.T. technician of choice since July 1981!

DONOR DAM **ST PAULS CC G430 PEAR M412 (SPGPM412)**

Australia's most prolific Simmental cow in 2022.

Comments: 5 sons sold in 2022 for a total \$85,000.
Full notes of M412 refer page 11.

4 EMBRYOS by RF Caliber 014G (IMCPQ0444) and St Pauls CC G430 Pear M412 (SPGPM412)

Comments: Refer to reference sire notes page 5.
Refer to dam notes page 11.
What could be better than this elite combination!

4 EMBRYOS by Gibbs 9114G Essential (IMU3Q9114) and St Pauls CC G430 Pear M412 (SPGPM412)

Comments: Refer to reference sire notes page 7.
Refer to dam notes page 11.
Essential has an amazing EPD profile and across Pear M412, there is no limit to how great the progeny will be.

DONOR DAM

ST PAULS NUK N426 PEAR R412

Identification No: **SPGPR412**
 Birth Date: **20/04/2020**
 Horn: **Homo. Polled (by DNA Test)**
 Colour: **Hetero Black (by DNA Test)**

Sire: BONNYDALE NUKARA
 BONNYDALE GEORGIA H279
 WS BEEF MAKER R13
Dam: ST PAULS BMX2 F422 PEAR N426
 ST PAULS BM PEAR F422

Maternal Sister R409

Comments: R412's dam N426, now at Elite, left us two outstanding females being R409 and R412. For the EBV index record R412 is No. 10 Domestic, No. 7 Vealer, No. 14 Northern Terminal Index, maternal sister R409 is No. 9 Export and No. 14 Domestic. Both have been super donors and will continue in the embryo program for some time. R412 bull calf is a stunner. So pedigree, EBVs, great looks, dominate here.

4 EMBRYOS by LFE The Riddler 323B (IMCPK323) and St Pauls Nuk N401 Pear Q424 (SPGPQ424)

Identification No: **IMCPK323**

LFE THE DARK NIGHT 350U
Sire: LFE GOTHAM 819Y
 LFE BEST LADY 47W
 TNT TANKER U263
Dam: LFE BS CHARO 23Y
 LFE CHARO 3N

Comments: What a blend. Riddler will add further body depth, weight and some show ring style and pizzaz to donor Q424 who already has shown she has the look and the data.

4 EMBRYOS by Gibbs 9114G Essential (IMU3Q9114) and St Pauls Nuk N401 Pear Q424 (SPGPQ424)

Comments: Check sire, Essential notes page 7.

DONOR DAM

ST PAULS CC F422 PEAR P401

Identification No:	SPGPP401
Birth Date:	01/01/2018
Horn:	Homo. Polled (by DNA Test)
Colour:	Hetero Black (by DNA Test)

TRIPLE C SINGLETARY S3H
Sire: CCR COWBOY CUT 5048Z
CCR MS 4045 TIME 7322T
WS BEEF MAKER R13
Dam: ST PAULS BM PEAR F422
ST PAULS DREAM PEAR D402

Comments: P401 sells as Lo 35, check out her story and EBVs. A pedigree with Cowboy Cut, Beef Maker to Dream On and the famed Prickly Pear 615F on bottom. P401 (Lot 36 daughter) R330 is the No. 1 combination carcass female of the whole breed! With 35 embryos flushed we decided to offer a few in the sale!

**4 EMBRYOS by LFE The Riddler 323B (IMCPK323)
and St Pauls CC F422 Pear P401 (SPGPP401)**

Identification No: IMCPK323

LFE THE DARK NIGHT 350U
Sire: LFE GOTHAM 819Y
LFE BEST LADY 47W
TNT TANKER U263
Dam: LFE BS CHARO 23Y
LFE CHARO 3N

Comments: Riddler, growth, thickness and great progeny eye appeal will be complimented her with everything P401 has to offer.

**4 EMBRYOS by Gibbs 9114G Essential (IMU3Q9114)
and St Pauls CC F422 Pear P401 (SPGPP401)**

Comments: Wow! We know P401 bred the carcass queen R320 when mated to Beacon. So guessing this mating could surpass R320. Those after carcass quaity and some looks, bid up! Check the embryo sire Essential on page 7.

SEMEN LOTS 62-73

All semen is stored at St Pauls Genetics facility, Henty NSW.

Semen could be sent to most semen resellers for a small shared charge.
