WELCOME

This year marks our 4th annual sale held in Emerald and we are excited about where our operation is heading. When we look back over the past 12 months, our record-breaking sale in 2022 was definitely a highlight. The most pleasing thing of all was the remarkable number of comments we received about the depth of quality in our bulls. We are so grateful, and it is something we take seriously and again this year, have catalogued a strong and consistent team of bulls.

The industry has taken a bit of a hit over the past 9 months, but the one thing that has held its value, is quality. It has shown even when market trends are down, the better types of animals return the largest return in the pocket. We strive for perfection in creating an animal that can produce progeny that are born easily, grow like crazy, weigh like lead, carry tonnes of thickness, length, muscle with the ability to lay down fat. We want our cattle to continue to get heavier at a younger age and eat as little as possible to do it.

Our herd of over 400 traditional Simmental females, is the largest Simmental herd run in the ticks, right here in Central Queensland. To do this, our selection criteria on feet and legs, moderate functional cows and sleek and fine hair type, is paramount to our cows surviving up here.

With this being said, we aim at delivering bulls that are hardy. Our bulls are weaned and bushed out onto grass paddocks in large contemporary mobs to sort out who are the real grass converters. They literally get run as a paddock of steers until sale prep time. Theres no pampering of our bulls - the ones that perform the best in the paddock are catalogued for sale. We like to think it's not just a bull you buy when you take a Karragarra bull home - it's an investment into our program. The program behind the bull is what offers real value - it's like the guarantee or the insurance.

We hope you enjoy the sale.

Wayne, Ingrid, Easton, Monty and Raige
