INSPECTIONS

Cattle will be yarded in pens at 'Karingal' 219 Henty- Ryan Road NSW 2658 and will be available for inspection from 11:00am - 4:00pm on open day Saturday 9th September 2023. Inspections can be arranged at any time prior to the sale by appointment with agents or the St Paul's Genetic team.

REGISTRATION & TRANSFERS

All bulls and females in the sale are registered with Simmental Australia. St Paul's Genetics will transfer eligible bulls and females into new purchase name through Simmental Society, purchases to please advise Simmental Australia herd prefix. The Settling Agent of the sale will conduct individual NLIS transfers to purchasers nominated PIC on registration form.

BIDDING / BUYER NUMBER SYSTEM AUCTIONS PLUS

THE SALE IS BEING CONDUCTED BY THE AUCTIONS PLUS ONLINE PLATFORM.

THE SALE WILL BE A SIMILTANEOUS AUCTION COMMENCING SUNDAY 17TH SEPTEMBER from 5PM and concluding via the timer system from 5PM on MONDAY SEPTEMBER 18TH.

The sale is online via Auctions plus. Usual protocol to register for bidding is required through this channel. It is strongly encouraged to register at least the day before the sale commencing.

PHONE BIDDING

Please contact agents prior to sale to arrange phone bidding, which then can be performed online on the intended purchaser's request.

CARTAGE / FREIGHT

St Paul's Genetic will co-ordinate freight assistance on deliveries. Purchasers, please confirm by requests to Bill by email billcornell@bigpond.com or via text to 0428 293 498.

INSURANCE

St Paul's Genetics recommends you take out insurance to cover your new purchase. At the completion of the online sale the animals you have purchased are your responsibility.

ANIMAL HEALTH

St Paul's Genetics has a PIC no NC322072 and is J-BAS 7.

All cattle have received the following assessments/treatments:

- Fully vaccinated with 7 in 1 (twice yearly April and October) and drenched to control any internal/ external parasites. All cattle are free to travel to all areas of NSW, VIC, TAS, SA & QLD.
- All bulls and all Heifers born in 2021, 2022 have been ear notched tested Bovine Viral Diarrhea (BVD) negative.

BULL SOUNDNESS AND FERTILITY

- All Bulls have passed a semen test, a breeding soundness and fertility examination and fertility with Holbrook Vet Centre and received a VIBRIOVAX shot.

FEMALE FERTILITY AND PREGNANCY STATUS

All females are warranted as sound breeding stock. All females have been pregnancy tested or non breed heifer passed a breeding soundness test. An individual comment with each lot as to the Pregnancy Status, this is to assist the potential buyer to understand whether the female is in calf to the AI, likely to pregnant to the AI or likely to pregnant to the bull.

DNA TESTING

Check the results of DNA testing in the information on each individual lot.

Note All bulls are homo polled, parent verified to mating and genomic tested. All bulls are homo black except lot 13 who carries a red gene.

All females are homo polled, all females are homo black except for lots 21 and 22. All females have been subject to parent verification, and all have been genomic tested.

GRADES

Check the grades in the information supplied on each individual lot. All bulls are purebreds, except lots 16, 17 and all females are purebred except lot 31 is a grade 1; lots 23, 24 are grade 3, then calves are purebred.

GST

All lots will be offered on a GST Exclusive basis

DISCLAIMER Whilst all due care and attention has made to accuracy in the compilation of this catalogue, neither the vendor nor the selling agent or representative thereof assumes any responsibility whatsoever for the correctness, use or interpretation of the information on animals included in this sale catalogue.

SALE FOREWORD SPRING 2023

Welcome to the St Pauls Genetics Black Simmental Sale being offer through an Auctions Plus Simultaneous Auction over two days starting Sunday September 17 and concluding 5PM Monday September 18 from 5pm. The success of the March 2023 sale encouraged us to continue with this friendly sale format.

We have decided to calve once a year starting in late autumn through to winter over 7 weeks. This will make management of pastures and labour requirements more efficient. Hence all females that are calving outside of this window are offered in this sale. Effectively a dispersal sale of all Spring joining cattle.

Moving forward there are no plans to have March sales now and we will move to September sales from now on.

We are holding an OPEN DAY for cattle inspections on Saturday September 9th from 11 am to 4 pm. Other inspections times are available by appointment.

Simmental Australia change performance recording systems to IGS EPDS, see chart on page 5. IGS is a multi-breed global data base. IGS includes any genomic data collected on animals. There are twenty partners and breed associations involved in IGS. The IGS system enables cattle producers to compare animals of different breeds or in different countries with IGS EPDS. Personally, we are receiving enquiries from other breeds to use Simmental in hybrid programs and use IGS EPDS.

Another development in 2023 is the potential use of Black Simmental and SimmAngus to complement and enhance some Angus branded programs.

We have added more information into this catalogue to assist you to understand more on our program and the opportunities available with the sale offering.

Sire highlights for this sale are the offering of the first progeny of RF Caliber and Gibbs 9114G Essential. Caliber semen has only been available in a few exclusive semen lots sold at auction. Essential is the best all round EPD Black Simmental available today.

The bull LCDR Witness was a limited import of semen to Australia, and this presents an opportunity to gain his power growth genetics. The embryos offered are the very same matings that we are using in our program. Nukara has sadly passed, and all semen sold out at ABS. The offerings in this catalogue are from the last one hundred units we have.

For buyers of embryos, we may be able to offer a calf raising option, give Bill a call.

If you have further queries with the sale offering in this catalogue, please do not hesitate in calling us or Chloe or Michael from Ray White.

Please use the QR code here to link to Auctions Plus to view videos of the cattle.

Or contact us for the YouTube play list.

Thank you for your interest.

The Simmental Journey

Through my travels I first saw Black Simmentals at Dave Nichol's farm in Iowa in 1985, although impressed it was a decade later before I added Black Simmentals to a semen sire directory. GW Mick 838B being the bull. I followed up with visits to Jim Butcher's Gateway herd in Montana.

In 2002 visiting Gateway I saw steers and learnt of the high compliance with Certified Angus Beef. I visited the American Simmental Association to learn more. In January 2003 I started my consultancy with ABS as the Beef Product Manager for Australia. Shortly after the appointment we, as ABS, convened a meeting with the American Simmental Board with the plan to advance Simmental genetics into the beef marketplace. Initially the meeting group agreed and started the Trans-Pacific Simmental Progeny Test Program. This plan gained momentum. In discussion with Jerry Lipsey, Marty Ropp and Wade Shafer I learnt that research from Clay Centre, Nebraska from 1972 to the present day shows that crossbreeding paid dividends. It showed the best combination of complimentary crossbreeding was using Angus and Simmental. In fact, these types of cows produced 25-30% more lifetime production than purebred cows like an Angus. The Trans-Pacific Simmental program concept was supported by Peter Speers the CEO of Simmental Australia. Over the next years a series of Field Days were held in Southern Australia. American Simmental speakers explained the Simmental maternal advantage.

My belief with cross breeding and the benefits of what Simmental had to offer led us to form a partnership with Circle8 and we traded as CO-OP Simmental, the prefix is still in the background of a number of Australian Black Simmentals today.

In 2003 CO-OP imported Black Simmental embryos and committed to the breed and this new cattle project. As the project refined Marty Ropp (then the Simmental Development Manager and now partner in USA Company All Beef and Allied Genetics) and Jerry Lipsey, the CEO American Simmental assisted me in procuring the main donor cows that have founded the herd. In 2008 our family cattle business St Pauls acquired full ownership of the CO-OP herd. I continued to expand the Black Simmental herd.

We have enjoyed remarkable success. Bob Butcher at Wills Hills bought fifteen heifers to start his herd and Webb's Simmental bought twenty-two heifers. In following years many of the Webb Simmental Sales featured high selling bulls go back to the original females purchased from us. We have sold bulls to studs and exported two Black Simmental bulls to China's largest A.I collection centre in 2010. St Paul's always wishes to share genetics with other breeders.

During the period we have enjoyed collaborating with other cattle breeders and assist them with stock for their cattle sales. One of the great involvements was with Paringa Black Stabilizers as they established their program with many St Pauls bred bulls going through their sale ring.

In March 2014 we had built quite a sizable herd, but with the sale of a farm we leased we scaled down. The sale was a Total Herd offering with every animal

genetics on offer, the few animals we wished to keep we offered flushes or embryos. 230 lots sold!

Following the sale, we steadily built the purebred black herd especially with co-operator herds contracting to raise ET calves.

Following a visit in later 2016 we sold half the herd to Andrew Moore, Lucrana Simmentals at Texas. In the following couple of years, we collaborated with Lucrana to provide young bulls for the Queensland market. Our son Adrian continued with this program because of local demand for our bulls prevented us supplying at the time to Lucrana.

Continuing with our program Elite Cattle Co purchased the majority of our Spring calving herd in January 2021. Elite wished to expand their annual sale bull numbers and St Pauls is proud to join the sale as an invited guest. We were so excited to have our ten catalogued bulls average \$19,500 with a top of \$30,000 in the 2022 Sale. Fourteen bulls are currently residing at Elite for the sale August 31st, 2023, sale.

We occasionally show our cattle at Royal Shows.

2014 Grand Champion Bull at Canberra with Gotcha Go out of the Pear D270 cow.

Grand Champion Simmental Female and Supreme Interbreed Champion of Canberra Royal with Red Pear G427.

At Sydney Royal in 2014 Red Pear was Grand Champion Simmental Female and Gotcha Go was reserve junior champion bull.

SIMMENTAL FEATURE BREED SYDNEY 2022

- Bull calf champion Silversmith S413
- 1st Pair of Bulls under 20 months - Silversmith and Secret Squirrel

STEERS

- St Pauls Doug S414, 2nd on hoof • 1st Class 6 on hook, Silver Medal • 1st Virtual Taste Test (sired by Nukara)
- St Pauls Frank S406, 3rd on hoof • Class 7 on hook, Bronze Medal (full flush brother to the junior bulls Silversmith and Secret Squirrel)

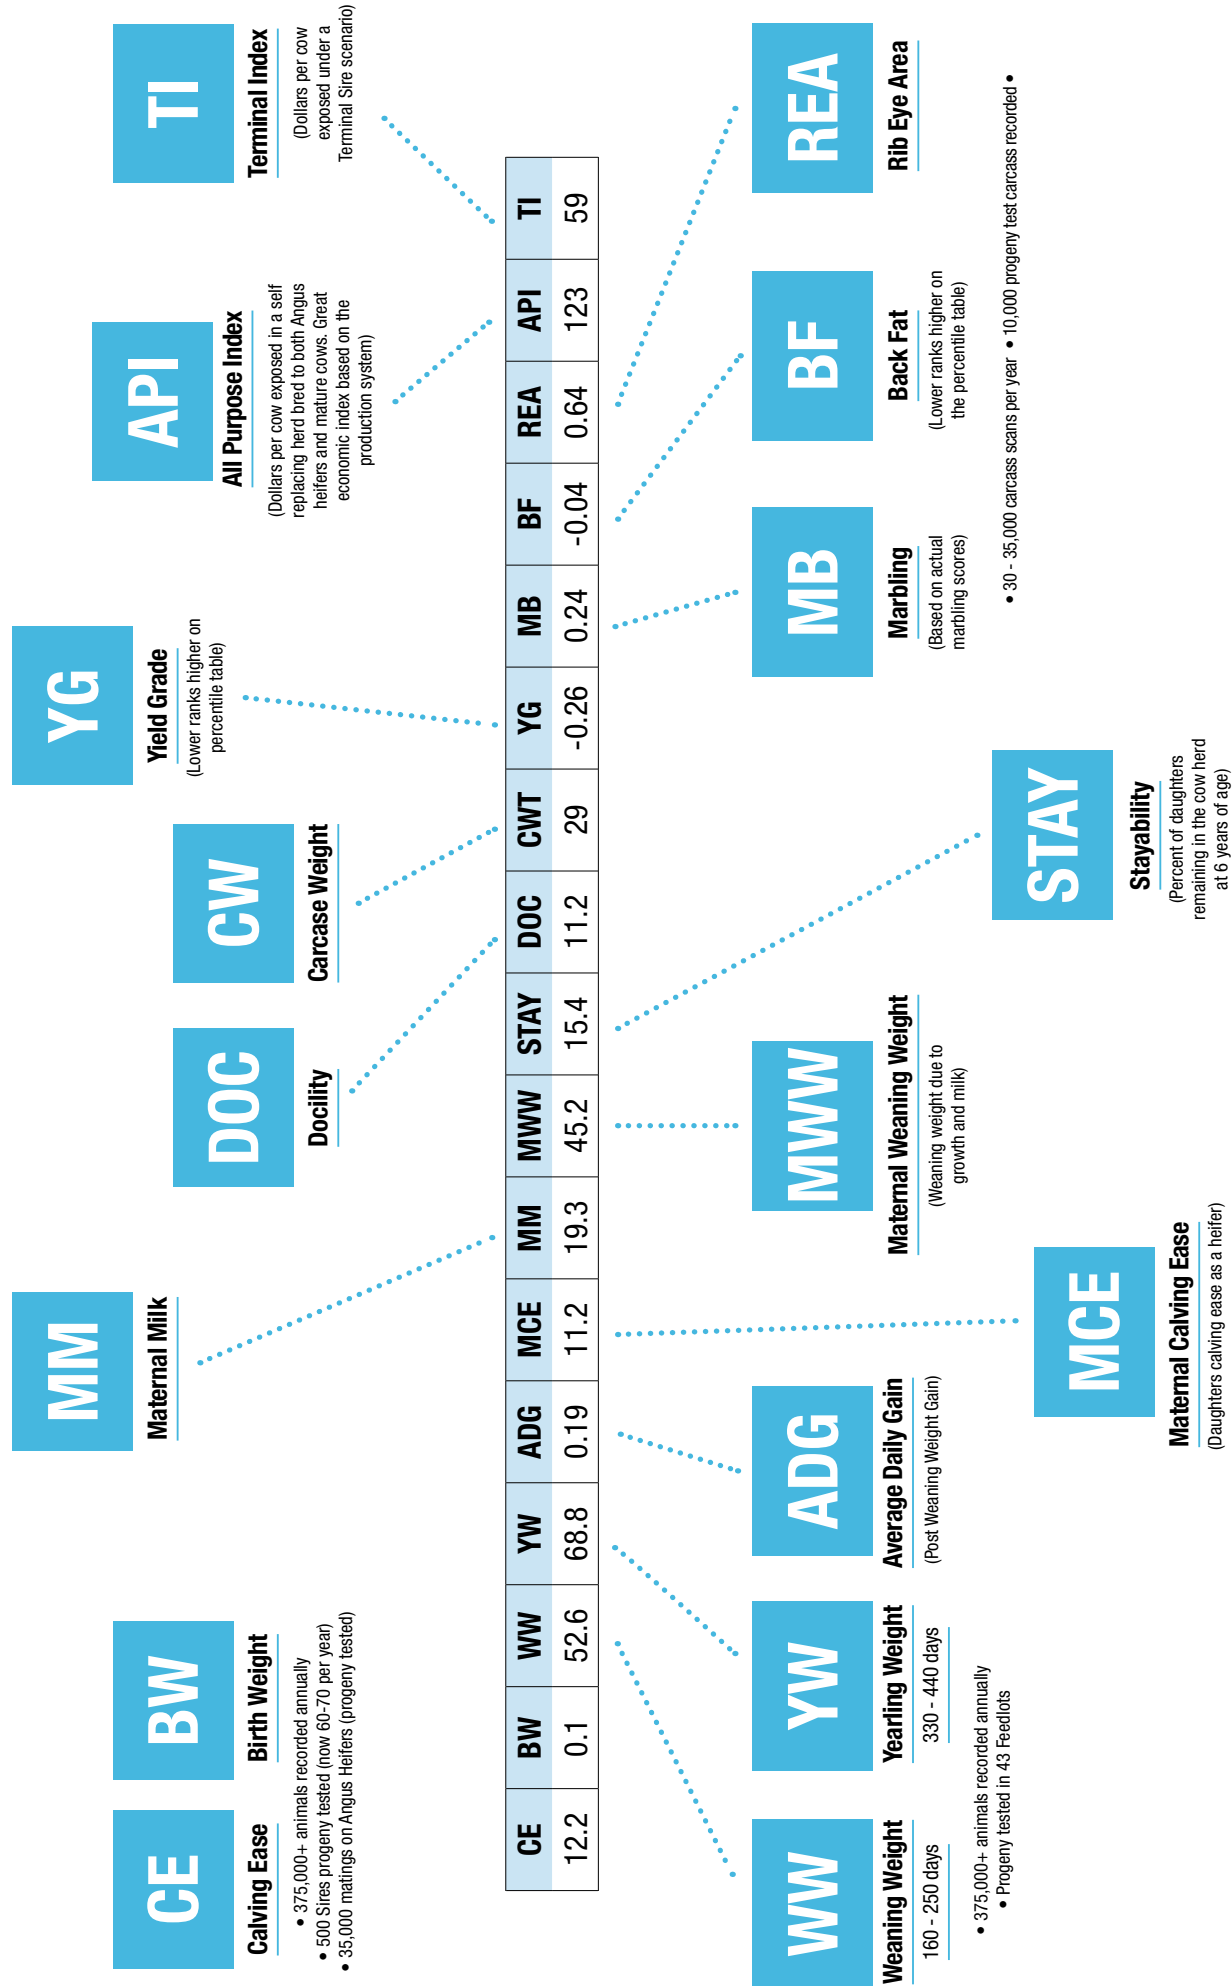

MELBOURNE SHOW 2022

Exhibited three purebred heifers • 12-16 months Female class placed 1st, 2nd, 3rd. We sold these heifers in the autumn sale for \$11,000, \$7,500 and \$7,000 respectively.

- First for Best two females under 20 months • First Sires Progeny Group • Winner Best Maintained Exhibitor • 12-16-month Simmental Percentage heifer 3rd sold in autumn sale at \$7,000.

Our plan is to breed the best Black Simmentals that we can. Factors of Performance in IGS EPDS; good looking phenotype, solid structure, overall fertility and docility are what we select.

QUICK GUIDE TO EPDs

REFERENCE SIRE RF CALIBER 014G (P) (B)

Identification No:	IMCPQ0444
Birth Date:	30/12/2019
Grade:	Purebred
Horn:	Polled
DNA:	Tested PV, SEEKSIRE
Parent Verified:	Verified to Sire
Colour:	Black

NCB COBRA 47Y
Sire: NGDB STRUCTURE 34D
 NGDB LOUISE 411 B
 SVS CAPTAIN MORGAN 11Z
Dam: RF NOT JUST A FLIRT 404B
 RF CERTAINLY FLIRTIN 202Z

Comments: RF Caliber 014G was the \$150,000 high seller in our 2021 bull sale to KT Ranches and Canadian Sires. Caliber has breed leading performance and powerful phenotype combined with tremendous maternal power. The bottom side of his pedigree stacks 5 generations of donor females and some of the most prolific females in our herd and the Simmental breed. His sire, Structure, stamps his progeny with extra middle, extra sound structure, great hair, and the first daughters in production are beautiful young females with great udder. Caliber semen is offered each sale held by Valley Creek and has been selling at \$400-\$450 per straw in packages.

Calves at side Lots 20, 23, 24, 25, Embryo Lots 50 and 53.

 SSF BLK LOUISE Y534
 HOOK'S BROADWAY 11B
Dam: GIBBS 7153E STAR 3136A
 GIBBS 3136A STAR 0589X

Comments: A purebred herdsire who rivals any in the breed. His EPD combination of double-digit calving ease, growth, docility and index values put him in a league of his own. He ratioed 115 and 119 at weaning and yearling in the Gibbs herd. He offers flawless design, excellent feet, disposition and hair. Different pedigreed purebred that has excellent mating possibilities. His dam is a young, highly productive cow. She has a perfect udder and is in donor pen at Gibbs Farm. First calves came easy with extra length, frame, and hip while balancing a striking looking with breed leading docility. EPD's, Essential has 11 traits in top 1% and 15 in top 10%, an easy bull to use. **Also sire of Embryo Lot 52, calves of Lot 18, 21, 22 and 29.**

RCR AUGUSTUS R54
Sire: BONNYDALE AUGUSTUS L84
 BONNYDALE JOSSIE G204
 TRIPLE C BETTIS S72J
Dam: BONNYDALE GEORGIA H279
 BONNYDALE GEORGIA

Comments: We purchased Nukara as a yearling at the top price of \$19,000. Nukara was an outcross and carried so many of the bloodlines we wished to add to our herd. Super safe calving and excellent growth and muscle. Nukara ranked No. 1 sire in 2021 and No 3 in 2022, for Australian Simmental calf registrations. ABS has sold out of semen now and we have about 100 left. Daughters are functional, good udder, sound structure. **Check lots AI to Nukara - Lots 32, 33. Sons sell Lots 3, 10, semen lot 54, calves at side 30.**

 CCR MS 4045 TIME 7322T
 ELLINGSON LEGACY M229
Dam: ST PAULS OLIE LUCY E433
 LUCAS MS 129L 594R

Comments: Qatar was the standout of his contemporary group. His sire Cowboy Cut has been one of the purebred most successful sires. His dam is the famed 'Olie' daughter E433 - she has perfect feet, medium framed, good uddered, E433 passed away this winter at 14 years.

Qatar adds length of body, soundness and superb looks. Qatar is the paddock sire for this winter's joinings.

Sons sell Lot 14 and 16, daughters sell Lot 31, 41, 42, 45, 46 and 47. Joining sire Lots 19 and 27.

 LANCASTER HIGH PROFILE H338
Dam: LANCASTER STRIKE M432
 LANCASTER STRIKE J183

Comments: T436, is a moderate framed thicker type bull, his appearance and EPD's would show as a calving ease heifer mating option. Dam M432 features Lot 53.

REMINGTON LOCK N LOAD 54U
Sire: W/C LOADED UP 1119Y
 AUBREYS BLACK BLAZE III
 HART ALL IN W382
Dam: SPRINGCREEK B GOLD 102Y
 SPRINGCREEK BLK SKY 100T

Comments: Spring Loaded is an accredited Simmental A.I. Sire. We purchased Spring Loaded in April 2022, and used him in two joinings. We have autumn calves on the ground that are showing plenty of thickness, shape and style. We have calved him to many maiden heifers and have not assisted any calvings. We have used Spring Loaded in our embryo programs.

Sales of his semen into other Simmental herds will soon give him a multi-herd EPD proof.

So why sell him?

This sale disperses the spring joining herd, so we need just the one sire at present. It made more sense to offer Spring Loaded as a 30 month old proven calving ease sire than Qatar as a 4+ year old. We have embryo, semen and progeny of Spring Loaded, so he is still there in our herd.

What is being offered?

Spring Loaded is sold with full possession, no further call for semen collection. 75 units of semen, tested and passed by Chenovet is included in the sale.

50% marketing is sold as well, with the purchaser and St Paul's able to sell semen to the cattle industry. Each party keeps the entire revenue in the semen sales they may make.

THE SALE FEMALE OFFERING

When we had the autumn 2023 sale which included the sale of all 'S' born spring females, it was certainly not our intention to have another female sale so soon after!

Since March 2023 we have had 40 more heifers enter the herd, many from the ET Cooperator herd. And with further success and more embryo calves born we have another 100 calves due in the herd early in 2024.

Life rolls on, with more calves coming in. The farm is really better suited to late autumn early winter calving. Our grandson, who lives at the farmhouse, about to go away for at least 12 months, it is logical we reduce to one calving period.

The decision, following a few tears, was made to sell the spring calving cows and the heifers to be joined this spring.

This group of spring joining females represent a huge opportunity for breeders to get females that generally would only come on the market for a dispersal!

In addition to the spring joiners we have offered a small selection of young late autumn calvers in lots 27, 31 to 34. There are some stars in this group.

We trust the short comments made on each lot will assist you.

Review the reference sires, as these are the sires of the calves born from the spring joining cows.

All females offered and calves at side are Purebred. Exceptions Lots 23 and 24 are Grade 3 but their calves at side are Purebred. Lot 31 is Grade 1 - a SimAngus.

I am sure intending purchasers will find some real gems in this sale offering.

Accurate text Attractive design

Typesetting is a design element that few people notice unless it's done poorly.
Good typesetting is easy to read.

SECRET SQUIRRELL S412

SILVERSMITH S413

SERBIA S415

M412 is a pedigree of who's who in the breed. Let's start with St Pauls Pear D270, still active and in the donor pen at 15 years.

D270 sire ES Dakota was an outstanding AI sire for ABS. Prickly Pear 615F was the one cow that Jerry Lipsey claimed as the performance and phenotype star of the breed. 615F ranked in the top 10 prolific cows of the American Simmentals.

Dam G430 is by the ABS AI sire Star (see Lot 57), perhaps the best son of Dream On, a one time registration leader of the breed. Star's dam K205 was at one time donor leader in the breed. Also K205 the dam of AI sire Mo Better.

G430 sold to Lucrana, but not before we had done two flushes. We got 2 daughters M412 and M421 (refer Lot 19).

Pear M412, first calf Paramount was the highest performance bull of the P year, check full sister S467 (Lot 30). M412 entered the donor pen.

Her progeny shone so bright in 2022.

Silversmith S413, won the bull calf championship at the Simmental 50th year Celebration Sydney Royal Show. Flush brother Secret Squirrel placed second. Together they won the pair of bulls under 20 months. The third brother Frank placed 3rd in the steer class and won a bronze medal on hook.

At the Elite Sale, as invited guest, Silversmith sold for \$22,000. Serbia being M412 natural calf sold for \$20,000 and Secret Squirrel at \$18,000. Two younger M412 sons, Story Teller and Ship sold as a pair for \$25,000, privately as yearlings at St Pauls. \$85,000 in total.

Introducing...

Lancaster PRINCESS K281

Lancaster STRIKE M432

We were delighted to secure these two cows at the Roses of Lancaster Sale in October 2020.

It was a time when Covid made travel plans so awkward. We selected these two cows on pedigree, EBV's and track record.

And as luck would have it Ross Thompson of Millah Murrah Angus was in SA inspecting cattle close by and I asked Ross to call in and pick four cows out, based on his phenotypic selection.

Ross picked out four and fortunately two of the four cows were those two cows I had picked out!

On arriving at St Pauls we flushed them three times each. In total K281 gave 33 A grades and M432 gave 28 A grades. A wonderful start.

Some of the resultant progeny appear in this catalogue. M432 with four bulls and a heifer, K281 with two bulls and a heifer.

M432 and K281 both have four bred heifers in the St Pauls herd and a son each are at the Elite Sale 2023.

We feature these two cows as they will have a big impact in our St Pauls herd in the years to come.

This winter we did one flush to each cow and collected a total of 32 embryos!

We offer four embryos of each cow in this sale, Lots 48 and 53.

 MISS PRICKLY PEAR 615F

Comments: Heifer Calf U478 by Gibbs Essential born 2/8/23.

L423 first daughter N401 is now at Elite, N401 first heifer Q424 is a current donor in our herd, and Q424's first heifer was shown in Melb '22. L423 dam D270 has been a donor, and still walks the pasture as a 15 year old cow. This family has longevity and super females. Calf U478 is a cracker! A daughter sells Lot 43.

Comments: AI'd on 15/7/23 to St Pauls Revenue R417 then depastured with St Pauls Qatar Q410. AI'd to the \$30,000 Revenue from 2022 Elite Sale. M421 is the maternal sister to M412, the breed's most prolific cow of 2022. We have shown sons in steer shows with great success.

M421's daughters sell as Lot 20 and 47 both being in the spring herd. M421 has been flushed 3 times for 18 A grades. We have retained 11. Many have asked to buy M421 - it is appropriate she is offered at auction. So here she is.

Comments: Heifer Calf U482 by Gibbs Essential born 7/8/23. R409 is one of two daughters of N426, now at Elite and dam of Lot 1 in the Elite Bull Sale 2023. R409 is one of the very best cows we have bred to date. Look at her length, top line, body capacity, consider the potential of her calf at side! Cows of this quality are rarely sold. Daughter Lot 32. We flushed her twice for 9 A grades. If you are seriously wanting a great young donor R409 is certainly a worthy candidate.

ST PAULS YELLOW M412 PEAR S467

Identification No:	SPGPS467
Birth Date:	05 August 2021
Horn:	Homo. Polled (by DNA Test)
DNA:	Tested GGP100K
Parent Verified:	PV-Parentage Verified
Colour:	Homo. Black (by DNA Test)

HOOKS TAURUS 24T
Sire: HOOK'S YELLOWSTONE 97Y
 HOOKS SHEYENNE 77S
 CCR COWBOY CUT
Dam: ST PAULS CC G430 PEAR M412
 ST PAULS STAR BLAZE PEAR G430

Comments: Heifer calf U486 by Bonnydale Nukara born 16/8/23. S467 full brother Paramount P419 was the standout performer in P year. S467 has a great balance of style and kind, super uddered and a shiny Nukara heifer at side.

Sad to offer but again spring joiners are offered. Her dam is the famed M412 cow, the breed's most prolific cow of 2022 (refer page 20).

For HOLBROOK VETERINARY CENTRE

ST PAUL'S SIMMENTAL OFFER

For the 13 lots being lots 35 to 47 St Paul's is giving 2 straws of semen in either:-

- **Spring Loaded** (see Lot 13)
 - **Circle T Antoinette Star** (see Lot 57)
- or 1 straw (we are nearly out) of
- **Bonnydale Nukara** (see reference sires)

For each of these lots semen choice to be made before Sept 30th 2023, so to arrange shared shipments.

Shipping cost to purchasers account.

ST PAULS QV Q409 LUCY T427

Identification No:	SPGPT427
Birth Date:	10 June 2022
Horn:	Homo. Polled (by DNA Test)
DNA:	Tested GGP100K
Parent Verified:	PV-Parentage Verified
Colour:	Homo. Black (by DNA Test)

 CCR COWBOY CUT 5048Z
Dam: ST PAULS CC G430 PEAR M412
 ST PAULS STAR BLAZE PEAR G430

Comments: Sells open, vet checked 9/8/23 as fertile sound heifer. T443, we can write a book on this famous flush mating. M412 is the 2022 most prolific Simmental cow. Flush brother, Silversmith was bull calf champion at Sydney Feature 2022 (sold \$22k), Secret Squirrel (sold 18k), paired to be Champion Pair of Bulls U/20. Flush sister Pear S434 won prizes at Melbourne 2022 and topped the autumn sale 2023. Two other flush brothers sold over \$10k. So a heifer with a star pedigree and she looks it as well.

ST PAULS CK N412 LUCY T467

Identification No:	SPGPT467
Birth Date:	01 August 2022
Horn:	Homo. Polled (by DNA Test)
DNA:	Tested GGP100K
Parent Verified:	PV-Parentage Verified
Colour:	Homo. Black (by DNA Test)

HC HUMMER 12M
Sire: RC CLUB KING 040R
 RC MISS GRIFFEY 038N
 HOOK'S YELLOWSTONE 97Y
Dam: ST PAULS YELLOW LUCY N412
 ST PAULS OLIE LUCY E433

Comments: Sells open, vet checked 9/8/23 as fertile sound heifer. T467 is the sweetest natured heifer in this group, always comes for a sniff or a lick. Her dam N412 sold in autumn sale, a female with frame and length that is in a Shorthorn hybrid bull program (the power of IGS multibreed).

EMBRYO LOTS 48 - 53

All embryos are direct thaw embryos that have been collected by E.T. technician David Christie.

Embryos are sold in packages of 4 embryos, and are sold on a per embryo basis.

Embryos are of sound quality. A warranty of a 50% pregnancy rate to 90 days over the purchaser's total embryos if implanted with an agreed technician.

David Christie has been our E.T. technician of choice since July 1981!

4 EMBRYOS by CCR Cowboy Cut 5048Z (IMUPH5048) and Lancaster Princess K281 (LCSPK281)

Comments:

DONOR DAM LANCASTER PRINCESS K281

Identification No:	LCSPK281
Birth Date:	23 June 2014
Horn:	Homo. Polled (by DNA Test)
Colour:	Homo. Black (by DNA Test)

Dam: RF NOT JUST A FLIRT 404B
 RF CERTAINLY FLIRTIN 202Z

Comments: Refer to referencee sire for comments. M432 will complement Caliber in so many phenotypic and EPD performance. We have kept embryos of this combination to implant. An opportunity to get the latest in genetic power.

SEMEN LOTS 54-58

All semen is stored at St Pauls Genetics facility, Henty NSW.

Semen could be sent to most semen resellers for a small shared charge.

54

No. of Units	SIRE	Australian Simmental Ident.
6	BONNYDALE NUKARA	MBBPN073

Comments: Homo Black Homo Polled. Recently deceased, top registration sire, CE Top 1%; Top 10% for low BWT, Top 10% for Growth and CWT; Top 5% REA. Proven calving ease.

55

No. of Units	SIRE	Australian Simmental Ident.
10	GB LIVESTOCK SPRING LOADED (PP) (ET) (AI) (B)	GBLPS106

Comments: Homo Polled, Homo Black but Wild Charlie Red Gene, so acts as a Hetero Black. Proven calving ease on Simmental maiden heifers.

56

No. of Units	SIRE	Australian Simmental Ident.
16	RFS RED IRON T20	IMUPC020

Comments: Homo Polled, Red Bull. Top 2% REA Top 20% marbling.

57

No. of Units	SIRE	Australian Simmental Ident.
10	CIRCLE T ANTOINETTES STAR	IMUPZ012

Comments: Homo polled Homo Black; Has a Blaze/Star; so will add white faces to some progeny! Top 25% of CE and Top 20% low BWT; Top 30% Marbling and REA

58

No. of Units	SIRE	Australian Simmental Ident.
5	LBRS GENESIS G69	IMU3Q069

Comments: Homo Black Homo Polled. New Release to Australia top 1% Growth, top 3% marbling.

Thank you

Ruby Canning of Mavstar Photography
and Eva McNamara of Reset Typesetting.

Doing a catalogue campaign is so much better with great folk
providing great assistance and super service.

Thank you.

Accurate text Attractive design

Typesetting is a design element that few
people notice unless it's done poorly.
Good typesetting is easy to read.

Phone or email to find out how I can help with your next project.
