## 5th Annual Field Day & ONLINE SALE 2026

ON-PROPERTY AT "GRANGEVALE"  
146 CLIFTON RD, HAMILTON VIC

**17 SIMMENTAL AND SIMANGUS SIRES  
9 REGISTERED SIMMENTAL HEIFERS**

**PLEASE NOTE:** Online auction will run from 9am, closing at 6pm (or until bidding ceases online) on Wednesday 4th February 2026.

Inspection can take place on the day or in the lead up, by appointment with Brodhi 0418 723 996

# WELCOME

Another testing season for most families involved in agriculture in Victoria and South Australia with New South now looking to head in a similar direction. Feeding and watering livestock has been a battle for the first half of 2025 but quite the opposite for the second half which has been a welcome break! Haysheds are now filling back up; we just need to fill some dams back up in 2026. I feel as if the cattle we are developing in the face of the tough seasons will benefit our client base in the long run as we weed out the lesser cattle for fertility and constitution.

Despite the tough season we have had great client support at our Online sale and the Queensland Simmental Bull Sale. Our 2026 online sale will offer industry relevant Black Simmental and Traditional Simmental bulls

ready to get to work, 10 black bulls and 7 traditional bulls will be offered, with several heifer bull options available. We believe this is the strongest offering of black bulls we have put forward. We are also offering 9 autumn drop registered heifers for those that may want a show heifer or purchase young heifer to develop and ate the way they'd like once they get them home. We capped our replacement requirements heavier this year and cannot keep more due to water stores being depleted (again).

We look forward to showcasing these cattle to everyone on 4th February 2026!

*Brodhi Carracher*

## AuctionsPlus

### How to Register and Bid on AuctionsPlus

- 1 Go to [www.auctionsplus.com.au](http://www.auctionsplus.com.au) to register at least 48 hours before the sale.
- 2 Select “Sign Up” in the top right hand corner.
- 3 Fill out your name, mobile number, email address and create a password.
- 4 Go to your emails and confirm the account.
- 5 Return to AuctionsPlus and log in.
- 6 Select “Dashboard” and then select “Request Approval to Buy”.
- 7 Fill in buyer details and once completed go back to Dashboard.
- 8 Complete buyer induction module (approx. 30 minutes).
- 9 AuctionsPlus will email you to let you know that your account has been approved.
- 10 Log in on sale day and connect to auction.
- 11 Bid using the two-step process – unlock the bid button and bid at that price.
- 12 If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: [info@auctionsplus.com.au](mailto:info@auctionsplus.com.au)

# SALE INFORMATION

**Inspection:** Cattle may be inspected any time prior to the sale day, by arrangement. If you can't make it on sale day, we encourage you to inspect the bulls at a time convenient to you by contacting Brodhi directly on 0418 723 996.

**Auction:** Held online only through AuctionsPlus, the auction will open at 9am on 4th of February before closing at 6pm – extended only by further bids. A 2% agent rebate is offered for those introducing their client in writing at least 24 hours prior to sale commencement and are attendance with their client on the day.

**Delivery:** This year we are offering freight assistance up to 300km in any direction.

**Field Day Safety:** We pride ourselves on the excellent temperament of our cattle, however, there are risks associated with natural bull behaviour. Entering yards is done so at your own risk. We take all precautions to keep you safe by providing secure yards and prohibiting children from entering yards.

**Breeding Soundness:** All sale bulls offered for sale have passed a crush side semen motility test by Nationwide Artificial Breeders. Morphology test also done by AVSM. All bulls offered for sale have been examined by Nationwide Artificial Breeders for penile soundness also. The certificates for these inspections are available for each bull.

**Supplementary Sheet:** The bulls have scan data supplied by certified scanning technician, Max Bowman, for Eye Muscle Area, Rump & Rib Fat, Marbling (IMF%) and will also have Weight and Scrotal Size Measurements provided.

**Guarantee:** All stock are guaranteed breeders. Any claim against the breeding ability of an animal purchased should be made in writing and accompanied by a Veterinary Certificate within six months of the date of sale. In the event of a bull failing to breed, it may either be replaced with an animal of comparable value or credit to the full purchase price will be given on a private sale animal. We will guarantee structural integrity of our cattle for 12 months from purchase date.

**Health:** We maintain a J-BAS 7 score so livestock are free to move anywhere in Australia. All sale animals pesti-tested negative.

All bulls have been vaccinated twice with Ultravac 7-in-1, Pestigard, Botulinum, 3 Germ (once), BEF and Vibrovax.

Unjoined heifers received Ultravac 7-in-1, Pestigard and Botulinum.

**Refreshments:** Cool refreshments will be provided on the day, along with snacks.

**Sale Bulls:** Our bulls have been prepared on pasture for most of their life, with silage and a grain-based pellet given through tough times where grass was sparse, so that they remain structurally and reproductively sound. Due to less grain, sale weights of our bulls may be slightly less than bulls at other sales.

**Retained Semen Shares:** Grangeburn retains the right to collect semen from any bull sold through the auction at our expense.

**Performance Data:** We have been using raw data and IGS information to measure the genetic improvement in our cattle. Aiming for progeny with good growth, combined with the right maturity pattern and an ability to finish easily off available nutrition.

**Visitors:** We welcome visitors to our property anytime to see how Grangeburn's program has advanced. We think you'll find that our cows are productive and up to the task of producing the next generation weaner calves, replacement heifers or even some sale bulls of your own.

# INTERPRETING IGS DATA

Breed data is now reported as EPDs (Estimated Progeny Differences). An EPD accounts for the fact that an animal will generally pass on half of these genetics to progeny. Thus, the EPD is what the genetic potential will be in an animal's progeny. This is further aided by genomically testing each animal, creating a more reliable data set for analysis.

# BULL MANAGEMENT

To give you an overview of how, and what your new bull has gone through to get to this stage I thought I'd give you a run-down of his life at Grangeburn. Our main calving period begins late in March through to May. Where calves are weighed at birth and tagged with two tags for identification, the calf is also given a score from 1-5 as to its calving ease.

The calves go through two rounds of assessment as they come through the yards for each of their Ultravac 7 in 1 doses, at roughly 6 and 10 weeks of age. At these points we castrate the bottom end of bull calves to maintain quality. Calves are weighed at 200 days old for growth EBV's and their dams are weighed for mature cow weight EBV's at this point.

Calves are weaned at 5-7 months dependent on the season, where they have DNA sampled for parent verification and Pestivirus testing to rule out PI. They also receive mineral and vitamin supplements, and are drenched before yard weaning for 3 days. The calves often are licking our hands once those three days are up. They then venture out onto pasture and silage, until the bulls receive a mixed ration prior to our sale day one year later.

All cattle in the herd are Pestivirus PI negative and are vaccinated annually with Pestigard, as well as Ultravac 7 in 1. Bulls only are vaccinated with Vibriovax, Botulinum, BEF and 3 Germ so they will have the ability to resist disease in any environment.

All bulls are examined externally for scrotal and penile abnormalities prior to sale day. They also have a crush side semen evaluation completed and have passed this, plus morphology in the laboratory.

Cattle Management: Going forward we recommend that all cattle purchased from Grangeburn be given at a minimum Pestigard and Ultravac 7 in 1 vaccination annually, prior to joining. Bulls should also receive a Vibriovax vaccination annually.

When bulls leave Grangeburn they're leaving home for the first time and will arrive in unfamiliar surroundings at your property. Please ensure that when the bull is unloaded that he has company in a cow or steer, if he can't be put with the bull mob right away, in a large paddock. Being the youngest of a group your young bull will be at the bottom of the pecking order, so care must be taken to ensure adequate feed and water sources are available for the young developing bull.

Our bulls are used to being handled with utes, 4x4 motorbikes, and SxS UTV. Keep this in mind when handling your new Grangeburn bull at home.

Under good management a rising two year old bull should be capable of serving 40 cows on his own, an older bull can handle more. However, if cows are synchronised for AI those that return as not pregnant to AI could wear your bull out if he has not got sufficient back up.

It is important to observe your bull at the beginning of mating to ensure there is no injury or disease preventing successful service of cows. Most injuries will occur in the first days to weeks of joining. Check him regularly to ensure he is not lame, nor injured. Plus, he likes it when you check him out!

## LOT 1 - GRANGEBOURN VIOLENT SOHO (P)

**GRANGEBOURN RAREFIED**  
WORMBETE NOLA P89

WOONALLEE ESSENDON  
**GRANGEBOURN POLLY P30**  
JURALEY NICOLE H22

Very correct traditional to begin the offering with extra length and class. A dark horse all along whilst this group grew out, he's turned into a bull with extra length and great structure. Top 1% CW, Top 2% for both indexes.

If you're chasing extra muscle pattern, added bone, excellent docility in a structurally correct package then jump on V30. His dam produces sale bulls year in year out and she has a phenomenal heifer calf at side this year. Top 3% STAY, meaning his retained heifers will have longevity in the herd.

## LOT 3 - GRANGEBOURN VIPER (PP)

## LOT 4 - GRANGEBOURN VENGABOY (PP)

WORMBETE NOLA P89

GLEN ANTHONY YARTA  
GRANGEBOURN SAVANNA Q13  
JURALEY L15

First of the Secret Service sons from a first calving heifer. He will add extra length. Very mobile bull with built in dehorners as he is homozygous polled. His dam is an outcross female with Canadian background, she has a perfect udder and is rearing another belter of a bull calf this year. Top 3% for CE, Milk and Marbling.

Added muscle shape and bone in a homozygous polled package. Perfect for vealer production. Top 3% ATI, top 3% CW and top 20% for WW & YW.

## LOT 5 - GRANGEURN VICTORIAN CHARM (H)

AI daughter of Marmaduke from a first calving Onyx heifer, the onyx are as honest as they come and just produce year in, year out. Slick skin and great neck extension in a high growth heifer. Top 10,15 and 20% for too many EPD's to list!

## LOT 18 - GRANGEBOURN ONYX W25

RUGGED R CAVILL  
**GRANGEBOURN UNIVERSAL**  
GRANGEBOURN ANNIFRIED S27  
  
GRANGEBOURN SHARP SHOOTER  
**GRANGEBOURN ONYX U46**  
GRANGEBOURN ONYX S45

**ZEUW025: DNA PENDING - DARK RED - BORN 7/04/25**

An outcross young heifer with plenty of Canadian Fleck genetics in her pedigree. She's a long heifer from a first calving Sharp Shooter daughter. Thick, soft and sweet! Top 3% BW, Top 5% CE.

## LOT 20 - GRANGEBOURN BELLE W39

RUGGED R CAVILL  
**GRANGEBOURN UNIVERSAL**  
GRANGEBOURN ANNIFRIED S27  
  
WOONALLEE NOTICE N141  
**WORMBETE BELLE T155**  
WORMBETE BELL P182

**ZEUW039: HORNED - DARK RED - BORN 11/04/25**

A long heifer with all the right cosmetics. She's out of a phenomenal Wormbete heifer we purchased for her presence and growth pattern.

## LOT 21 - GRANGEBOURN RAMBLER W46

**ZEUW046: HORNED - LIGHT RED - BORN 19/04/25**

WORMBETE PARLIAMENTARIAN  
**WORMBETE SAMPSON**  
WORMBETE BELLE J102  
  
GRANGEBOURN MASTERS PRIDE  
**GRANGEBOURN RAMBLER T84**  
JURALEY CHLOE K15

## LOT 23 - GRANGEBOURN ULSTER W3

**ZEUW003: DNA PENDING - DNA PENDING - BORN 15/03/25**

WS PROCLOMATION E202  
**KHBR GLOBAL J138**  
BAR CK MS X38 106Z  
  
VC RENOWN  
**TUGULAWA ULSTER**  
TUGULAWA RADIANT

## LOT 22 - GRANGEBOURN REGAL W7

TOPWEIGHT JACK ARTA  
**WILLANDRA MARMADUKE**  
WILLANDRA OLIVE K12  
  
KERRAH E307  
**GRANGEBOURN REGAL T106**  
WOONALLEE REGAL K13

## LOT 24 - GRANGEBOURN POPPY W11

HOOK'S BEACON 56B  
**KHBR HONOR H060**  
WS MISS SUGAR C4  
  
WORMBETE PLUTONIUM P184  
**GRANGEBOURN POPPY U73**  
GRANGEBOURN POPPY R73

**ZEUW007: DNA PENDING - DARK RED - BORN 17/03/25**

AI daughter of Marmaduke, we've retained her twin sister. The Regal's always outproduce themselves here so here's your chance to get into one with some nice EPD's. Top 10% Milk, WW, YW.

**ZEUW011: DNA PENDING - DNA PENDING - BORN 21/03/25**

Honor heifer from a first calver with a great udder set, again a heifer with great EPD's for calving ease and birth weight. Top 3% for CE and BW.

## LOT 25 - GRANGEBURN PEAR W59

**ZEUW059: DNA PENDING - DNA PENDING - BORN 6/05/25**

Another really soft heifer with capacity for such a young animal. Top 20% CE EPD.

## LOT 26 - GRANGEBURN BLACK BETTY W49

**ZEUW049: DNA PENDING - DNA PENDING - BORN 21/04/25**

Black Betty females are always at the front end of our weaner groups for type, all derived from the Lancaster J357 cow we love.
